AXIOS CAREER ACADEMY

About AXIOS CAREER ACADEMY

Axios Career Academy is a premier coaching institution primarily catering to IGCSE, AS and A Levels, and the IB Diploma Programme, with a strong focus on STEM education.

Founded by IIT Bombay alumni Mr. Pratik Sonone and Mr. Tanmay Malik, Axios offers a distinctive approach to teaching complex concepts through hands-on experiments and laboratory-based learning. Complementing this experiential model are regular assessments, individualized attention, and adaptive learning content—all central to the academy's pedagogy.

The faculty at Axios comprises of seasoned subject matter experts and passionate mentors who believe in nurturing not just academic excellence but also holistic development. Students are encouraged to build confidence, cultivate a growth mindset, and explore achievements beyond the academic threshold.

Axios represents a milieu of traditional classroom values and modern teaching methods, brought to life through interactive lectures, digital resources, performance analytics, and consistent feedback. The academy fosters a collaborative learning environment that promotes healthy academic discussions and helps students strengthen their problem-solving abilities, preparing them not only for exams but also for the challenges of life beyond school.

Currently, over 200 Axios students have secured admission to top universities across the globe, including prestigious Ivy League institutions, and have been recognized for their academic excellence through competitive scholarships, research opportunities, and leadership roles within their academic communities.

Director's Message

Mathematics, Biology, Chemistry and Physics are disciplines of the highest order developed by our species. An inquisitive mind is required to study these disciplines, as they provide a stage for higher order learning and opportunities.

Science and Mathematics have led to the advancement of modern technology, bearing fruits for mankind and making our lives immensely comfortable. Cutting edge technology requires interdisciplinary learning and props the stage for a more sustainable future. Having deep knowledge and understanding of these fundamental disciplines is required to unleash the infinite potential of the human mind. To conquer every professional challenge, it imperatives to develop that never say die attitude & a will to learn.

At Axios Career Academy, we have accumulated a great deal of teaching expertise and understanding in the fields of Mathematics and Science but to look beyond one must climb to the summit and search for the truth; In the same spirit, I invite you to come and stand on the shoulders of giants to see for yourselves and enjoy the noble fruits.

IBDP

Courses at Axios

IN MATHEMATICS WE OFFER

Analysis & Approaches (AA)
Application & Interpretation (AI)
Higher Level (HL) & Standard Level (SL)

IN SCIENCE WE OFFER

Physics, Chemistry & Biology.
All Sciences are available in HL & SL

IN COMMERCE WE OFFER

Economics HL/SL
Business Management HL/SL

IN LANGUAGES WE OFFER

English, Spanish, French
A Literature HL/SL
A Language & Literature HL/SL
B HL/SL, AB initio SL

Salient features of Axios IBDP Courses

1. **Extensive Coaching:**
   12 hours of coaching per week provided for Math & Science
2. **Personalized Attention:**
   A small batch size is maintained to ensure individuals focus
3. **Comprehensive Study Material Provided:**
   Well-structured class notes, topical worksheets topical past paper worksheets & subscription to multiple question database provides (included in fees)
4. **Mock Examination Results :**
   Mocks for every subject conducted post portion completion to aid in outstanding board resutls
5. **Regular PTMs:**
   Regular updates about student performance provided to parent
6. **Doubt Solving Sessions:**
   Dedicated time to solve doubts and concept reinforcement
7. **Integrated Science Lab:**
   To aid in better understanding of topics in science pertaining to paper 1B & IA, an experiment-based teaching approach is used

The IBDP offers several benefits to the students:

1. IBDP prepares students for higher education and equips them with the skills and knowledge necessary to succeed in an increasingly interconnected world.
2. Through its comprehensive curriculum and focus on holistic education, the IBDP prepares students for success in higher education, career pathways, and becoming active global citizens.
3. In addition to academic studies, the IBDP also includes core components such as Theory of Knowledge (TOK), Extended Essay (EE), and Creativity, Activity, and Service (CAS). These components promote critical thinking, independent research, and engagement in extracurricular activities, fostering personal growth & development.
4. Above all, IBDP students are preferred and have high acceptance rates in the best institutions across the globe.

   Dedicated time to solve doubts and concept reinforcement
7. **Integrated Science Lab:**
   To aid in better understanding of topics in science pertaining especially to paper 6, an experiment-based teaching approach is used

The IGCSE program offers several advantages to students:

1. It provides a flexible and internationally recognized qualification, allowing students to transition smoothly into various educational pathways worldwide, especially AS/A Levels and IBDP courses.
2. The IGCSE curriculum promotes critical thinking, research skills, and independent learning, preparing students for the demands of higher education
3. The program encourages active participation, practical application of knowledge, and development of transferable skills, fostering students' personal and intellectual growth.

The IGCSE program offers several advantages to students:

1. AS Levels allow students to study a broader range of subjects, providing flexibility in their educational choices and the opportunity to explore different academic disciplines and gain a solid foundation.
2. A levels offer a specialized and in-depth study of specific subjects, allowing students to focus on their areas of interest and strengths.
3. A levels provide a pathway to higher education, as universities often require specific A level grades for admission.
4. A levels are known for their academic rigor and are highly regarded by universities worldwide.

Testimonials

I was so much clearer with concepts after joining Axios classes. Anytime I had a doubt, the teachers explained it wonderfully. The way they teach makes learning so easy and stress-free. I honestly wish I always had teachers like them.

Sarah Saxena, Student

My experience at Axios has been truly transformative. The teacher's were supportive and were ready to give one on one attention when needed. Along with Academics, Axios has fostered my curiosity and helped me become a life long learner.

Dhruvi Gohel, Student

When it comes to academics, enrolling myself in Axios Career Academy has perhaps been one of my best decisions during IBDP. It is genuinely amazing how Axios was able to help me the way it did, striking the perfect balance between effective teaching, learning, discipline, and communication with faculty who made themselves available beyond expectations. In my honest opinion, Axios C.A. has the best to offer.

Abhimanyu Gupta, Student

Axios Classes has been an incredible support system for my daughter's academic journey, starting from 9th grade and continuing till today. The faculty is knowledgeable, approachable, and genuinely invested in their students' success. The teaching methods are clear and structured, making even the most difficult concepts easy to understand.
Thanks to Axios, my daughter has not only improved her grades but also gained confidence in subjects she once found challenging. We truly appreciate the consistency, dedication, and personalized attention provided throughout the years. Highly recommended for any student looking for strong academic guidance

Kamlesh Asnani, Parent

My time in axios is an experience that will stay with me for the rest of my life. From the jokes that Pratik Sir cracked with us to unsure that we had that little bit of energy to finish the practice questions and allow us to score well in our exams, to tanmay sir being the stronge arm to ensure we did not start yapping and could finish our studies.

These little things are what make axios so unique and I won't change a singal thing about it.

Subhan Ghose, Student

Amazing place, great study space and amazing teachers who knows their subjects really well and are very easy to talk to and ask questions.

Ayaana Koppikar , Student

Axios has become my son's go-to place for studying. The calm environment and supportive vibe help him stay focused. It feels less like a library and more like a community where he can actually get things done.

Ritu, Parent
